### Technical Skills

- Java, HTML, CSS, PHP, SQL, Linux
- Built an E-commerce frontend for college project.
- Experience in building apps using REACT.
- Basics of Machine Learning and Artificial Intelligence

### Soft Skills

- Teamwork
- Time Management
- Problem Solving
- Observation
- Multitasking

### Education History

- Bachelors of Sciences in Computer Science and Information Technology 2076 - 2081 (Expected).
- Prime College, Tribhuvan University.

### Reference

- Er. Rolisha Sthapit

### PROFILE

I am an enthusiastic and self-motivated candidate with a strong passion for software development. I have a track record of developing projects using a range of technologies, including HTML, CSS, JavaScript, and React. In addition, I am currently engaged in a machine learning project. My ambition drives me to seek out new challenges daily, and I particularly enjoy solving complex logical problems.

### COURSES AND PROJECTS

#### Python Course

1. Proficiency in Python programming language.
2. Knowledge of various Python libraries, such as NumPy, Pandas, and Matplotlib.
3. Currently involved in building Python applications and projects, such as data analyzers, and machine learning models.

#### MERN

1. Proficiency in building full-stack web applications using the MERN stack.
2. Knowledge of database design and implementation using MongoDB.
3. Proficiency in building dynamic user interfaces using React.
4. Cloned Youtube and Watch websites using React
5. Knowledge of frameworks like Material-UI, Bootstrap, etc.

#### HTML, CSS, JS

1. Proficiency in HTML, CSS and JS.
2. Knowledge of designing the structures.
3. Implemented handful projects like Snake game, Analog clock, Tic Tac Toe, Car game, etc.
